FINE PERENNIALS

. . . for Fall, 1943

from

THE JOSEPH F. MARTIN CO.

Growers of Fine Perennials

PAINESVILLE, OHIO

‘ ‘ B E S T B Y T E S T ’ ’

Dear Friend:

Since every facility at our disposal during these difficult times is concentrated on the production and maintenance of an adequate supply of perennials for our fine family of patrons, this war-time edition of our fall catalog is less elaborately compiled so that our time may be employed "out there" for our mutual advantage.

It's really satisfying, though, to pause a moment to reflect upon your fine, indulgent patronage, and to try to express the warm appreciation all of us here feel for your consideration.

We feel sure that everyone of us has become acutely aware of the splendid market that exists for perennials and of the many profit possibilities in them now. We can't stress too strongly the great advantage that will accrue to this fall's buyers.

So, accept our thanks again for the multitude of fine relationships that you have so generously offered and we have so genuinely enjoyed. Everyone of us here pledge our complete effort toward your service with fine perennials, always to the very best of our ability.

Sincerely,

The Joseph F. Martin Company

Florists:--

Here Is A Special Selection of

Forcing Material

Now, when ease of culture is so important, and the demand for Perennials and Polyantha Roses forced is so sensational, plan to devote a large portion of bench space to them. Don't hesitate, for the profit possibilities are tremendous. Cut or in pots, developed on the greenhouse benches or in frames outside, they are money makers all the way. Insure your supply by ordering now for immediate delivery, or for reservation here.

Pilkington. Midnight purple, long stems.	1.75	12.50
Princess of Wales. Rich deep purple.	1.75	12.00

Polyantha Roses for Forcing

Pot plant sales were tremendously profitable during this past year, and the Polyantha Roses lead the parade. These that we offer are from the limited quantity that we grow each season for our select and discriminating trade. They are well spaced in nursery rows, and have every advantage of the right culture from the day the understock is planted. The entire stock is on a reservation basis—consider them well right now, and let us have your order at once for shipment at your convenience.

BABY RAMBLER (MME. LEVAYASSEUR). The original light crimson sort with fine heads of small flowers.

ELSE POULSEN. Lasting bright rose-pink.

ERNA TESCHENDORFF. Bright red sort, brighter than Baby Rambler.

GLORIA MUNDIE. Brilliant orange-scarlet flowers in huge clusters.

GOLDEN SALMON. Large clusters of striking reddish-orange buds and blooms.

IDEAL. Fine dark red.

KIRSTEN POULSEN. Single bright scarlet flowers in clusters.

LAFAYETTE. Semi-double, bright cherry-crimson.

MRS. R. M. FINCH. Large double rosy pink flowers.

DAPHNE CNEORUM

FOR FLORISTS AND PLANTERS

We are glad to report that we have Daphne in excellent supply. However, due to the stress of the times, we have been forced to give up the shipment of Daphne balled and burlapped. All plants are now dug bare root in the field and immediately wrapped individually. Many of our patrons, receiving them in this way, and avoiding the otherwise heavy transportation charges have signified that they will continue to purchase bare root because their plantings have been completely successful. Try these at the following buyers' bargain prices:

6-9"	Per 10,	\$3.25;	Per 100,	\$27.50
9-12"	Per 10,	4.25;	Per 100,	37.50
12-15"	Per 10,	6.50;	Per 100,	57.50
15-18"	Per 10,	8.00;	Per 100,	75.00

SHRUB NOTICE

We are still growing the line of shrubs as presented in our Fall 1942 catalog. However, we must restrict the sale of small quantities, due to the inadequacy of labor. Please don't hesitate to write to us with your quantity requirements for special prices.

IT'S JUST GOOD SENSE . . .

To increase perennial plantings this fall. The ease of culture and minimum of care required make perennials particularly suited for your consideration now. Their popularity with all, either gardeners or florist customers, and the ease with which they may be transferred from your plantings to your customers all goes to make profit insurance for your operations during these trying times. Incidentally, knowing that regular sources for cut flowers to florists are going to be considerably disrupted, have you nurserymen considered becoming the local source of supply in your area?

IRIS KAEMPFERI

THE MODERN GARDEN ORCHID

Tall and stately, gorgeously colored, and flowering for a month, they sell themselves to any gardener. Once started with Iris Kaempferi, your customer is a prime prospect for all of the varieties to complete a garden collection. Planters use them for spotting in garden plantings, and for naturalization, the cool green foliage is nature at its best. Quality is always first, of course, and this list is a premium selection. Why not set your Iris out now so that you will have them right at hand next spring and summer?
